Christmas 2013

Last Nippers for the year on Sunday 22nd December, and we'll have a very special guest.....

Here's a reminder about what's happening on and around South Curly over the holiday period and a couple of other pieces of news

Whilst most of us enjoy the festive season and the chance to relax amongst family and friends, a few South Curly members are recuperating from some serious illnesses. Everyone at South Curly would like to wish them and their families well - we hope to see you down at the beach in the New Year

Jim (Humpty) Hall a member from the late 1950's through to the eighties, the father of our current long term patrolling member Steve Hall. Steve's dad (Humpty as we affectionately nick named him all those years ago) has recently undergone a major operation and is now recuperating at home with his wife Kaye - we wish him well in his recovery.

Dave Olivey a member from the same era as Jim and still a member who recently received the Clubs inaugural Distinguished Service Award has also recently undergone a serious heart operation. Dave (or Curly Dave as he is better known) is doing fine and we wish him well and hope to see him back down at the club soon.

Steve Birch one of our current patrolling members has also recently undergone some heart surgery, again we wish him and family well and look forward to seeing him soon back down at Curly on the beach.

Attention: 15-17 year old Surf Life Saving NSW (SLSNSW) Members

Reminder that nominations for the 2014 Youth Opportunity Makers Workshop are open!

Surf Life Saving New South Wales invites nominations for the 2014 Youth Opportunity Makers Workshop. The workshop is geared towards creating greater awareness of opportunities and individual abilities in 15-17 year old members. Branches are encouraged to use this workshop as a method of recognising members who have the potential to develop skills further by working with like-minded youth.

The workshop will be sponsored by Surf Life Saving New South Wales, and held 14 – 17 April 2014 at the Collaroy Centre in Collaroy on Sydney Northern Beaches.

The workshop is aimed at members whose clubs and branches believe they have qualities that can be developed to enhance the future of the club and branch. Aims of the workshop include:

- To create situations that promote fun learning experiences
- To create an awareness of current issues, pathways and opportunities
- To promote teamwork, communication skills and goal setting
- To develop confidence and self esteem in a supportive environment whilst positively recognising members
- Provide opportunities for ideas to be exchanged

Participants will take part in seminars, presentations and workshops for focused learning, in addition to some great fun activities and challenges.

Branches will be allocated two (2) positions in the program and should rank additional applicants in preferential order. Ideally one male and one female applicant per branch will be represented. Positions not filled will be allocated to the most promising applicants from other branches.

All applications are to be endorsed by their respective club and Branch Directors and forwarded to Surf Life Saving New South Wales by Monday 3 February 2014, marked attention to Laura Hough. Ideally nominations will be received via email to Laura – lhough@surflifesaving.com.au
